Midlander Kimberly Crisp announcing candidacy for Midland City Council District 4

Midland, TX- Kimberly Crisp, local counselor and mental health professional is announcing her candidacy for Midland City Council District 4.

"I'm running for city council because, with every new article I read about the decisions being made by our local government, I become more irate. The lack of transparency and accountability is appalling. I've never had any political aspirations, but I refuse to sit back and do nothing while our elected representatives continue to place political agendas over the well-being of our community."

Crisp plans to focus the campaign on the following issues.

- 1.) Eliminating the Midland Development Corporation and their unchecked use of taxpayer monies to pick winners and losers and reallocate those resources to road/city maintenance.
- 2.) Ending all handouts to private companies to promote "downtown resurgence" efforts and allow the free market to take over.
- 3.) Focus on real solutions to our infrastructure problems that are realistic, appropriate, and cost effective.

Crisp is a third generation Midlander and has been a resident of Midland nearly all of her life. She graduated Suma Cum Laude with a Master's Degree in Clinical Psychology from UTPB. Following graduation, Kimberly began working as a licensed professional counselor in private practice. She is married with two children.
